# Drag & drop

The screenshot displays a web-based Form Builder interface. At the top, there is a search bar and a navigation menu with items: Home, FB Admin (highlighted), Form Submissions, Forms Report, Guest Users, and Document. On the left side, a sidebar titled "All Fields Type" lists various field options: Textbox, Textarea, Email, Phone, Picklist (Allow Branching), Checkbox (Allow Branching), Radio (Allow Branching), and Switch (Allow Branching). The main workspace is titled "Step 1" and shows a form layout with a column labeled "Col-1". Inside this column, there are three input fields: "First Name(TextPlain)", "about you(Textarea)", and "Phone(Phone)". A "Textarea" field widget from the sidebar is currently being dragged over the "about you(Textarea)" field, which is highlighted with a dashed blue border.

# Customization Options
